

# MASTER ADAPT

MAInSTreaming Experiences  
at Regional and local level  
for ADAPTation to climate change

## LOMBARDY REGION

MASTER ADAPT has involved the Lombardy Region and locally the Aggregation of 8 Municipalities in Northern Milan (Lentate sul Seveso, Meda, Barlassina, Seveso, Cesano Maderno, Desio, Bovisio Masciago and Varedo) in the Seveso River area

### MAIN ACTIVITIES

- ▶ Territorial climate analysis and vulnerability assessment of the Seveso River area
- ▶ Identification of general adaptation objectives, the same for all, and specific for each Municipality
- ▶ Implementation of Master Adapt Guidelines for the integration of adaptation measures into planning at local level
- ▶ Synergy with the Seveso Sub-basin Strategic Project in the framework of the Seveso River Contract
- ▶ Adoption of adaptation measures
- ▶ Increase in knowledge and dissemination at the local level
- ▶ Review of the most recent developments in climate action of the Lombardy Region

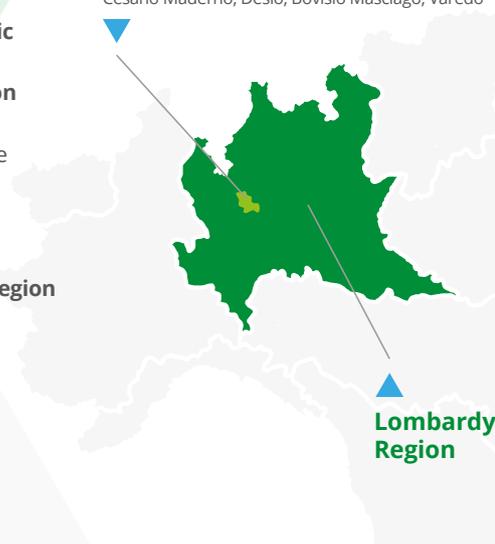

### MAIN RESULTS

- 19 local adaptation actions identified, focused on urban overflows and flooding, renaturalising and urban heat islands
- 10 regional adaptation measures implemented at regional scale
- 7 Municipalities in the Northern Milan area signed the supra-municipal Charter for adaptation of the Seveso River basin
- 13 meetings organised with 100 participants, representatives of the Municipalities and local stakeholders

Synergies with public and private territorial actors, adaptation mainstreaming into planning, design, and realization of public works: Seveso River Contract, Integrated Water Service Operator, Civil Protection and others
